## PREFACE

This index is to the first thirty volumes. Earlier indexes to the first ten volumes and to the first twenty volumes were issued in 1975 and in 1987 respectively.

The main divisions of the material are: Index to Articles, Index to Abstracts to ThM Theses, Index to Book Reviews, and Index to Book Reviewers. All four indexes are presented in alphabetical order by author. It should be noted that the Index to Articles is in chronological order under each individual author.

As far as possible, the bibliographical information of the books reviewed has been checked for accuracy and necessary corrections have been made.

Such a venture as this is dependent on the assistance of a number of people. In particular I single out Martin Vander Vliet for having put the information of the first twenty volumes on the computer and Kathleen L. Struck for providing me with the necessary information for verification of the titles reviewed that were not being held by the Hekman Library.
